**2006 Tartan Ball and Silent Auction
Benefiting the
Washington Scots Charity and Education Fund**

“Relieve the Distressed”

Through the Washington Scots Charity and Education Fund, the Saint Andrew's Society of Washington, D.C. lives its motto. The Society was established in the eighteenth century to provide assistance to Scotsmen, their descendants, and their widows. We continue to provide charitable and educational support to those in need.

Proceeds from the Tartan Ball, including those from our silent auction, benefit this Fund, which has enabled young American and Scottish students to further their higher education. In this way, we also strengthen ties between our two nations, for the university classroom is part of that lasting relationship.

Silent Auction Rules

Payment for purchases must be made in full by cash, check (Payable to the St. Andrew's Society of Washington, D.C.), or charge on the night of the auction, after the winning bidders have been determined.

Unless otherwise specified, the details for delivery of items and services will be arranged at the mutual convenience of the donor and purchaser. However, all services and events must be used within one year from the date of the auction. Items that are on display may be taken home that evening, after payment is made.

Values set forth on auction items are estimates and are not guaranteed by the auction committee for market value or for tax purposes. Of course, because this is a fundraiser, all sales are final.

26	An Interior Design Consultation with Greta Gray Webel	Donated by:	Greta Gray Webel
<p>If you would like to discuss your particular situation and design needs, consider a consultation with Gray & Associates Interior Design. In this, you and Greta Webel will meet and see if your working styles, visions, and personalities are as compatible as they should be for a designer/client relationship. In this session, which takes about an hour or a bit more, Greta will come to your home and discuss your priorities, timeline, and budget. She will also see the items you have, and determine which of them can be used in a design revision. Before this session, it's best to discuss the consultation with any decision makers in the home and make sure they can participate (to the extent they wish). Make a wish-list of those items you would like to see, and include their wish list, too. Describe how you would like an area to function, feel, and look. It's helpful to bring magazine pictures of rooms you like to the session. Greta will respond with creative solutions, approximate investment levels, and timelines in the session. You can be involved in the design revision solutions if you would like, or she can do all the work. It's up to you. A consultation is a great way to get to know Greta, imagine your home's possibilities and experience Greta's flexibility!</p>

<p>John Paul Jones: America's First Sea Warrior. This fresh look at America's first sea warrior avoids both the hero worship of the past and the recent, inaccurate deconstructionist views of John Paul Jones's astonishing life. The author goes beyond a narrow naval context to establish Jones as a key player in the American Revolution, something not done by previous biographers, and explains what drove him to his achievements. At the same time, Admiral Joseph Callo fully examines Jones's dramatic military achievements—including his improbable victory off Flamborough Head in the Continental ship Bonhomme Richard—but in the context of the times rather than as stand-alone events.</p>
